

ANNEX B

Canadian Nuclear Safety Commission December 14, 2001-Meeting

DECISION

Agenda item 9.1 CMDs 01-M77 and 01-M77.A

Unlicensed Uranium Tailings Management Sites

The Canadian Nuclear Safety Commission grants, pursuant to section 7 of the *Nuclear Safety and Control Act*, the following exemptions from licensing:

- 1) Exempt from licensing the possession, management and storage of nuclear substances at the Spanish American, Milliken, Lacnor, Nordic/Buckles and Pronto sites in Ontario until 2002 December 31.
- 2) Exempt from licensing the possession, management and storage of nuclear substances at the Dyno site in Ontario until 2003 December 31.
- 3) Exempt from licensing the possession, management and storage of nuclear substances at the Bicroft site in Ontario until 2004 December 31.
- 4) Exempt from licensing the possession, management and storage of nuclear substances at the Port Radium site in the Northwest Territories until 2004 December 31.
- 5) Exempt from licensing the possession, management and storage of nuclear substances at the Agnew Lake site in Ontario until 2004 December 31.
- 6) Exempt from licensing the possession, management and storage of nuclear substances at the Gunnar and Lorado sites in Saskatchewan until 2004 December 31.
- 7) Exempt from licensing the possession, management and storage of nuclear substances at uranium mine sites without uranium tailings described in CMD 01-M77.A and in section 4 of CMD 01-M77 and until 2004 December 31.

ANNEX C

Canadian Nuclear Safety Commission December 14, 2001-Meeting

DECISION

Agenda item 9.2 CMDs 01-M78, 01-M78.A and 01-M78.B

Waste Management Areas Owned by the Crown, Historic Contaminated Lands, Landfills and Radium Luminescent Devices

The Canadian Nuclear Safety Commission grants, pursuant to section 7 of the *Nuclear Safety and Control Act*, the following exemptions from licensing:

- 1) Exempt from licencing the possession, management and storage of nuclear substances at the Passmore Consolidation Mound, Fort McMurray Landfill Mound, Fort Smith Nuisance Grounds Mound, and the Tulita Consolidation Mound sites until 2002 December 31.
- 2) Exempt from licencing the possession, management and storage of nuclear substances at the Deloro Mine site until 2004 December 31.
- 3) Exempt from licencing the possession, management and storage of nuclear substances at the Port Hope unlicensed sites until 2006 December 31.
- 4) Exempt from licensing the possession, management and storage of nuclear substances at the Fort McMurray Waterways site for a period of ten months ending 2002 August 31.
- 5) Exempt from licencing the possession, management and storage of nuclear substances at the Toronto area unlicensed sites described in section 2.2 of CMD 01-M78 for a period of five years ending 2006 December 31.
- 6) Exempt from licencing the possession, management and storage of nuclear substances at the Fort Fitzgerald area unlicensed sites described in section 2.4 of CMD 01-M78 for a period of five years ending 2006 December 31.
- 7) Exempt from licencing the possession, management and storage of nuclear substances at the Fort Smith area unlicensed sites described in section 2.5 of CMD 01-M78 for a period of five years ending 2006 December 31.
- 8) Exempt from licencing the possession, management and storage of nuclear substances at the Sahtu Region area unlicensed sites described in section 2.6 of CMD 01-M78 for a period of five years ending 2006 December 31.

- 9) Exempt from licencing the possession, management and storage of nuclear substances for Municipal Landfill sites until 2004 December 31.
- 10) Exempt from licensing as specified under section 8(b) of the Nuclear Substances and Radiation Devices Regulations until 2004 December 31.
