

Revised Notice of Participation at a Commission Meeting

June 26, 2012

Ref. 2012-M-03
Revision 1

CNSC Staff Integrated Safety Assessment of Canadian Nuclear Power Plants for 2011

This revised notice has been made to add the hyperlink to the [submission](#) filed by CNSC staff.

The Canadian Nuclear Safety Commission (CNSC) will hold a meeting on August 15, 2012, during which CNSC staff will present their *CNSC Staff Integrated Safety Assessment of Canadian Nuclear Power Plants for 2011* (2011 NPP Report). This report assesses the safety performance at each NPP, makes generic observations and identifies trends for the nuclear power industry as a whole.

The 2011 NPP Report also summarizes the actions taken by NPP licensees and CNSC staff during 2011 in response to the Fukushima accident. The CNSC concluded as a result of the 2011 Fukushima review that Canadian NPPs continue to be safe and that the risk posed to the health and safety of Canadians or to the environment continues to be small. CNSC staff has also verified that all Canadian NPPs are located far from tectonic plate boundaries and that the threat of a major earthquake at a Canadian NPP is negligible.

Meeting Date: August 15, 2012
Place: CNSC Public Hearing Room, 14th floor, 280 Slater Street, Ottawa, Ontario
Time: as set by the agenda published prior to the meeting date

The public is invited to comment, in writing, on this meeting item. Written submissions must be filed with the Secretary of the Commission by July 24, 2012 [on-line](#) or at the address below. Please also include your name, address and telephone number.

Personal information, such as address and telephone numbers, is essential for linking the submission to its author. Please submit your personal information on a separate page if you wish to ensure its confidentiality. It should be noted that all submissions are available to the public upon request to the Secretariat.

CNSC staff's [submission](#) is available online or by sending a request through the Secretariat at the address below.
