

Notice

May 8, 2009

The Canadian Nuclear Safety Commission (CNSC) makes legislative, policy and administrative decisions in accordance with the *Nuclear Safety and Control Act*. This notice serves to announce the Commission decisions made at a recently held public meeting.

Following a public meeting of the Commission held on April 29, 2009 in Ottawa, Ontario, the Commission approved for public consultation purposes the following document:

draft Regulatory Document RD-152, *Guidance on the Use of Deterministic and Probabilistic Criteria in Decision-making for Class I Nuclear Facilities*.

The CNSC will now proceed with the consultation process on this draft regulatory document. For further information regarding CNSC regulatory documents, visit the CNSC Web site at <http://www.nuclearsafety.gc.ca/eng/lawsregs/regulatorydocuments/index.cfm>

The minutes for the April 29, 2009 meeting will include the above item and be tabled for the approval of the Commission at the next scheduled meeting on June 10 and 11, 2009. The approved minutes will be available soon thereafter on the CNSC Web site at www.nuclearsafety.gc.ca or by contacting the CNSC.

The Canadian Nuclear Safety Commission (CNSC) regulates the use of nuclear energy and materials to protect the health, safety and security of Canadians and the environment; and to respect Canada's international commitments on the peaceful use of nuclear energy.
